Provence - Mist

Jasper Fabrics JW 7771

Description: Provence captures the essence of Moustiers, long considered one of the most beautiful villages in the South of France. The village was built on platform terraces a hundred meters up the side of a cliff. At twilight when the sun strikes the south-facing cliff, a diffuse blushing light glows across the village. This durable, lightweight fabric made out of a blend of natural and manufactured yarns is a striking example of aesthetics and practicality.

Width: 52"W

Repeat: 8.75"V, 4.25"H

Content: 60% cotton, 25% rayon, 8% flax, 7% Poly
